WOMEN'S INTERVIEW DRESSING FOR SUCCESS TIPS!

- When in doubt, dress up rather than dress down
- No denim
- Be neat, clean, and modest
- No gum
- Offer a full and firm hand shake – never be limp
- Wear hose with skirts and dresses to formal interviews – even in the summer
- Take a purse or attaché but not both
- Wear clean, closed-toe, polished shoes (Vaseline is a good, inexpensive polish substitute) and shoes should match or be darker than the color of your hemline or, can be skin-toned
- Wear a collar on your blouse, jacket, or both
- Avoid loud colors or wild prints
- Pull back hair if it's long and at any length, keep it off your face
- Wear small stud or hoop earrings – nothing dangly
- Conceal tattoos and piercings (other than ears) as much as possible
- Watch your posture! Lean forward just a little to keep your back straight
- Wear light, natural make up
- Wear very light or no perfume
- Keep jewelry simple and tasteful with no more than one ring on each hand
- Make sure nails are clean with clear or light neutral polish
- Don't try to look so attractive that you are distracting. Therefore, no cleavage, tight clingy clothes, stilettos, or mini skirts
- Keep skirts or dresses around knee length or no more than two inches above the knee. Long ankle-length skirts are not appropriate
- Never cry
- Wear your smile, especially when you meet and say goodbye
- Be positive and leave your problems at the door!
